1. I am an adult competent to testify about the matters set forth below based upon my personal knowledge. I have lived in Mesa County, Colorado for 69 years.

2. I have traveled and am familiar with a road in Grand County known as Steer Ridge Road. I am also familiar with the land the road traverses. When I first used and observed the road in 1952, it followed the same route as in 2006 when I last observed it. Attached is a Grand County map showing Steer Ridge Road. To the best of my knowledge and based upon my use of and familiarity with this road and the land it traverses, the location and route of the road are correctly illustrated on the attached map. The County also identifies this road according to the road number listed above.

3. I have observed that the road has been open to the public for all to use, to come and go as they pleased, since at least as early as 1952 and continuing through 1976 to 2006. Throughout this time period I have observed travel on the road by various means, including cars, semis, maintenance vehicles, ATVs, trucks and jeeps. Throughout this time period, the road has been used weekly, for more than ten continuous years prior to 1976, and was so used in 2006.

4. Throughout the time period from 1952 to 2006, I have used the road myself for hunting, livestock operations and traveling in and through the area.

5. Throughout the time period described in the previous paragraph, I observed vehicles using the road at various times for the uses described in the previous paragraph, plus oil and gas exploration, wood gathering and camping.

6. It is also the reputation in the community that this road has been open to the public for all to use, to come and go as they pleased, since at least as early as the early 1950s and continuing through 1976 to the present, for the uses described in the previous paragraphs.

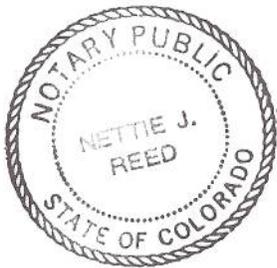

7. Prior to 1976, I observed graders performing maintenance and construction activities on the road.

Dated this 7 day of September, 2007.

The location of said physical presence is closely approximated by mapping grade Global Positioning System (GPS) data. Said data are checked against the corresponding gray-scale 1-meter Digital Orthophoto Quadrangles published by the United States Geological Survey (USGS) to verify a reasonable degree of accuracy. In circumstances where accurate satellite signal acquisition is not possible, such as deep, narrow canyons or under a canopy of dense foliage, or where very sharp curves in the road make accuracy questionable, such portions of the road were digitized from the corresponding gray-scale 1-meter Digital Orthophoto Quadrangles published by the United States Geological Survey (USGS).
